## MESSAGE

I consider it is a personal privilege to have known Dr.Arijit Das, Assistant Professor of Chemistry (now at Ramthakur College) for a good number of years. As a true teacher he has engaged himself in 'learning' rather than 'teaching' Chemistry. This progression has led him to look for process which would suit a general student to take a grasp on Chemistry so that he does not have to live with a 'Chemistry - Phobia' of sort.

The technique and formulae used by Dr.Das in this presentation is not to be judged by me who is clearly amateur in Chemistry. But the effort is there to look at and the man behind this effort is to be relied upon, I am assured by my own experience of working with him as a Colleague. And I have no hesitation to communicate this.

I wish Dr Das and his effort all success.

  
MR DEBAJIT CHAKRABORTY

ASSOCIATE PROFESSOR  
RAMTHAKUR COLLEGE, AGARTALA  
WEST TRIPURA, TRIPURA, INDIA
