Dr Arijit Das's book on chemistry published by German house

By Our Correspondent

Agartala, Oct 17, 2016 : Tripura's renowned Chemistry scholar Dr Arijit Das's research work is now available in German as the famous German publisher Lambert Academic Publishing has brought out a book titled 'Mixed Ligand Complexes of 1,1- Dithiolates and Nitrogen Donors' (ISBN-978-3659909801) on July 13 this year. This book is now available with famous online shopping centre 'Amazon'. The book is meant for PG and Research level studies. This is the first such book to have been published from Germany , authored by a chemistry scholar from Tripura.

Dr Arijit Das who has innovated sixteen new methodologies and 36 new formulae for the study of chemistry had completed his masters and Phd in inorganic chemistry from Tripura Central University. For his innovative work he was offered and conferred the membership of prestigious American Chemical Society (ACS). Dr Das is reviewer of books , articles and contents on chemistry for the best chemistry journals of the world. Currently he is the head of the department of chemistry in Ramthakur College, Agartala
